

# Rushant Golakiya

React Native Developer

[rushantgolakiya@gmail.com](mailto:rushantgolakiya@gmail.com) | +91 8490805136

## Work Experience

### Codetown Technologies (Remote) | Jul 25 - Present

- Managed **3 dual-flow apps**, ensuring clear separation of features and smooth, reliable user experience.
- Built a compact Android location **native module** and **socket-based** features for real-time updates. Worked on **10+ projects, upgraded 5+ apps** to higher Android API levels, and fixed legacy library issues to boost performance and stability.
- Led a major restructuring of the **Intellipaat** app—fixing outdated code, improving structure, enhancing overall performance and user experience.

### Codonnier Solutions | Nov 24 - Jul 25

- Worked as a senior React Native developer, independently driving **COR, Habit-Builder, and AutoTrak** projects from **scratch to deployment**. Translated complex wireframes into stable cross-platform applications, leveraging **Supabase, REST APIs, and DigitalOcean Spaces (AWS SDK)** for secure media workflows.
- Handled **7+ client projects** end-to-end, managing delivery, performance, and technical decisions. Strengthened **client communication** and ensured timely, high-quality releases across multiple projects.

### Tagline Infotech LLP | May 24 - Oct 24

- Improved overall **code quality and performance** by ~30% through optimized state management (Redux Toolkit, Zustand), contributed to **5+ production projects**, and gained strong release experience using **Google Play Console** and **App Store Connect**, along with API testing and debugging using **Postman**.
- Mastered **Google Ads** and integrated **Firebase** (Auth, Firestore, Remote Config, Analytics, Push Notifications) to build scalable and real-time mobile features.

### Artistry Solution | May 23 - Apr 24

- Worked on my first React Native projects during a strong learning phase, contributing to **2 apps** like **FAX** and **Call Recording** with **OCR, PDF generation, and media handling** features. Gained practical experience with **Firebase, Redux, and FFMPEG** while learning best practices from **senior developers** and improving early app stability and performance.

## Projects

### [IntelliPaat](#) (online education platform – 50k+ downloads)

- Restructured the app by upgrading to the **latest React Native version**, updating **Android API levels**, fixing **major bugs**, and improving **code quality**. Improved **app launch speed** by ~20% through code clean-up and dependency optimization, reduced **crashes**, enhanced **load time**, and boosted overall **performance**.

### [Flockify](#) (location-based social networking app)

- Technology used - **Expo, Firebase, Agora SDK, OpenStreetMap, Axios**.
- Built a location-based social platform connecting communities with real-time audio/video calls and interactive communication via **Firebase and Agora SDK**.

### [COR](#) (construction based app)

- Technology used - **RNFS, AWS SDK, Vision Camera, Document Picker, MMKV, Signature Canvas, Zustand, WebView, Axios**.
- Built a construction management app with a paperless workflow using AWS SDK and DigitalOcean Spaces.

## Skills

- Mobile Development:** React Native CLI, Expo, Android Studio, Xcode
- Languages:** JavaScript, TypeScript
- Backend & Databases:** Firebase, Supabase, REST API Integration
- State Management:** Redux Toolkit, Zustand
- Cloud & Storage:** DigitalOcean Spaces via AWS S3 SDK, Supabase PostgreSQL, MongoDB
- Monetization & Analytics:** Google Ads, Google ADX, Google AdMob, Firebase Analytics
- Tools & Version Control:** Git, Github Desktop, Bitbucket, Sourcetree
- Methodologies:** Agile

## Education

B.C.A | VNSGU - Surat, Gujarat  
Apr-2022 | CGPA: 6.39

## Personal Portfolio

### [BGMI UC Challenge – Earn UC](#)

- A dynamic app with **35k+ downloads**, offering daily quizzes and UC rewards for **BGMI** fans—using Supabase for reliable user data storage.

## Other Projects

- [TippI](#)
- [Knitally](#)
- [NGI Health](#)
- [V Games](#)
- [Quiz Reward - BGMI](#)
- [VKonnect Messgenger](#)
- Shiftly
- LaundryWhizz
- AutoLift
- SafeFlow
- AutoTrak
